- Cumulative GPA: 3.69 / 4.00, Major GPA: 3.75 / 4.00 (First Honor Expected)
- Relevant Coursework: Stochastic Modelling & Simulation, Time Series, Statistical Inference, Categorical Data Analysis, Stochastic Processes, Regression, Financial Derivatives, Fixed Income Securities, Database Systems, Data Structure
- Academic Honors and Awards: Department of Statistics Scholarships (top 2 in major), Dean's List (top 10% in faculty), Master's List (top 1 in major), Yasumoto International Exchange Scholarship

McGill University   Jan 2023 - Apr 2023
Exchange Student, Faculty of Science   Montreal, Canada
- Term GPA: 4.00 / 4.00
- Relevant Coursework: Matrix Numerical Analysis, Statistical Learning, Ordinary Differential Equations

INTERNSHIP EXPERIENCE

Dymon Asia Capital (HK) Ltd.   Aug 2023 - Present
Quantitative Research Intern, MSIF-Portfolio Management Department   Hong Kong
- Responsible for data loading and checking from various financial vendors, including Bloomberg, FactSet, MSCI, etc.
- Implemented data retrieving, cleaning and transformation (SQLAlchemy, Pandas) in order to engender alpha signals
- Scripted in Python and SQL, built tools for web scrapping and constructed alternative databases to reposit data sets

Prudential Holdings Ltd.   May 2023 - Aug 2023
Actuarial Intern, Asset / Liability Management (Group Investment)   Hong Kong
Contracted with Robert Walters (HK) Ltd.
- Generated stochastic simulation sets under risk-neutral scenarios, deeply involved in data collection, parameters refinement and testing to meet calibration targets
- Assisted in research and further development of modelling process, ameliorated the workflow by Python automation
- Performed market consistent valuations for multiple countries and real world projections based on simulation sets

China Galaxy Securities Co., Ltd.   Jun 2022 - Aug 2022
Summer Analyst Intern, Securities Finance Department   Beijing, China
- Calculated P&L, VaR and sensitivities of several portfolios, implemented P&L attribution analysis and backtesting
- Investigated on stock ratings and trading behaviors, collaborated in pricing model refinement and optimization
- Tracked domestic financial market movements and regulatory environment, analyzed credit market data using Python

Minsheng Equity Investment Fund Management Co., Ltd.   May 2021 - Aug 2021
Investment Manager Intern, Investment Management Department   Beijing, China
- Conducted research and analysis on target client profiles and relevant industry (photovoltaic, autonomous vehicle)
- Appraised comparable listed companies valuation (EV/EBITDA, P/E, DCF) and comparable transactions valuation
- Assisted in drafting pitch books for potential transactions, composed marketing materials for reporting purposes

PROJECT EXPERIENCE

CUHK Business School Postgraduate Admission Data Research   Feb 2022 - Aug 2023
Research Assistant, Faculty of Business Administration   Hong Kong
- Developed and implemented data analysis using Python / Excel on CUHK Graduate School candidate profiles, processed and clustered over 200,000 data points for 4 consecutive academic years
- Visualized the data (Matplotlib, Tableau) and designed graphs & charts for reporting analysis results

CuSell (Course Project for Software Engineering) ⛓   Jan 2022 - Apr 2022
Designed for providing CUHK students with a platform to trade second-hand merchandise   Hong Kong
- Scripted in HTML / CSS / JavaScript, designed and developed ornamented, user-friendly UI & web pages
- Built connection and integrated front-end user-facing interfaces with back-end web server framework (Django)
- Regular maintenance, management, and update of project codes on GitHub

LEADERSHIP EXPERIENCE

Science Student Academic Advisors   Hong Kong
- Provided academic recommendations to students of the Faculty of Science via the consultation sessions
- Shared first-hand experience in course selection, academic planning and experiential learning opportunities

Three Heart Club, Voluntary Teaching   Luoyang, China
- Delivered six lectures related to modern computer science development and basic programming (VPL)
- Organized sharing sessions regarding self-learning for over 200 students located in the remote areas of China

SKILLS & LANGUAGES

- **Software:** Experienced with VS Code, Bloomberg, Wind, Microsoft SSMS; Frequent user of MS Office Suit
- **Programming:** Python (OOP, data analysis), R, MATLAB, Excel VBA, Java, JavaScript, C, C++, Linux Command
- **Database Management:** Knowledgeable in DBMS (SQL Server, MySQL, MS Access, etc.)
- **Language:** Fluent in English (IELTS 7.5), Mandarin (mother tongue), Cantonese (basic)
